OBJECTIVE

Motivated pre-final year Computer Science and Engineering student at VIT Bhopal University, specializing in Cybersecurity & Digital Forensics. Actively seeking internship and placement opportunities where I can apply my skills in cybersecurity, ethical hacking, and software development to contribute to innovative tech solutions.

EDUCATION

B.Tech – Computer Science and Engineering, VIT Bhopal University   Expected 2026
Relevant Coursework: Network Security, Operating Systems, Python Programming, and Data Structures.

Senior Secondary (12th standard), Sudhir Memorial Institute   2020 - 2021

Secondary (10th Standard), Sudhir Memorial Institute   2018 - 2019

SKILLS

Programming Languages	HTML, CSS, JavaScript, Python
Tools & Technologies	Wireshark, Scikit-learn, Kali Linux
Soft Skills	Team Collaboration, Problem Solving, Communication

CERTIFICATIONS

Foundations of Cyber Physical Systems – NPTEL, Python Essentials – Vityarthi, Cybersecuirty - IBM, GenAI – IBM

UNIVERSITY PROJECTS

Network Traffic Analyzer: *Python, Wireshark, Flask, HTML/CSS/JS*

- Developed a real-time tool to monitor and analyze network traffic.
- Identified security threats through packet analysis and visualized data via an intuitive web interface.

Safar.com – Travel Booking Website : *HTML, CSS, JavaScript*

- Designed and developed a responsive travel website allowing users to explore destinations, book trips, and view itineraries.
- Emphasized UI/UX design and front-end development principles for a smooth and engaging user experience.

Sign Language Detection System: *Python, OpenCV, TensorFlow/Keras*

- Developed a system that detects and interprets American Sign Language (ASL) hand gestures using computer vision and deep learning.
- Real-time gesture recognition using the webcam feed, improving accessibility to communication for hearing-impaired.

EXTRA-CURRICULAR ACTIVITIES

- Participated in multiple cybersecurity and technology workshops.
- Passionate about ethical hacking and digital security trends.
- Actively building projects in cybersecurity and backend development.
